Effortless living, naturally.

Eastbrook Village is a vibrant new neighbourhood with a unique vision. Here, modern living meets an oasis of nature, blending homely touches with wildlife on your doorstep.

Nestled in the heart of leafy Buckinghamshire, yet only moments from the pulse of Milton Keynes, and 30 minutes from London Euston, this is a village crafted for connection – to neighbours, to nature and to a network of opportunities.

There's more to the outdoors here. Stroll through our 160-acre country park, swap tablet time for treetop adventures and discover vast open spaces where you can truly switch off.

Settle into a home that's been crafted to last, featuring thoughtful design and attention to detail behind every door. And wake up to scenic views that revitalise your outlook, all year round.

Eastbrook Village isn't just somewhere to live. It's somewhere to belong, to grow and to call home.

One of the most efficient areas for commuting in the UK.

Located in the Golden Triangle between Cambridge, Oxford and London, Milton Keynes is one of the best areas for commuting in the UK.

Work outside the city? Milton Keynes Central will get you to London Euston in 30 minutes. And you can access 90% of the UK within hours.

The hugely popular Redways pedestrian and cycle network runs for over 200 miles, with 13 Super Routes criss-crossing the city centre for direct commuter access.

Plus, a new £1bn motorway will link the historic city of Cambridge with Milton Keynes and is expected to cut journey times by over a third.

The UK is embarking on its most expensive road construction endeavour to date. The new £1 billion stretch of motorway aims to link the historic city of Cambridge with Milton Keynes and is expected to significantly alleviate congestion and improve safety on one of the UK's busiest routes.

Currently, the A428 is a critical yet congested route, with daily vehicle counts expected to rise from 25,300 to over 32,000 by 2040. By cutting journey times by more than a third during peak hours, the new road is anticipated to save drivers up to 10 minutes per trip.

Enterprise city employment in Milton Keynes.

Milton Keynes is more than just a place to live. It's a place to put down roots, with new employment opportunities on the horizon. The new Employment Hub / Logistics Park will create a future-forward space to meet the needs of local and national companies, while adding value to the local economy. This will be a flagship employment destination, where business thrives and high-quality employment and training bring opportunities for everyone.

Eastbrook Village is close to major employment opportunities, from Santander to Network Rail. Formula 1 racing team Red Bull HQ is also in Milton Keynes, just 12 minutes from your doorstep. The site employs over 800 people, with a laser focus on innovation. Start-ups and co-working spaces are also on the rise in central MK. And with a 45,000-strong tech workforce in the city, it's easy to see why.

Bright futures start here.

Students have the world at their feet in Milton Keynes. Diverse and dynamic learning are on the agenda here, with an exceptional range of primary, prep, secondary schools and colleges all nearby and ready to nurture young, aspiring minds.

There are four new schools planned on site for Eastbrook residents, including Elverby Primary School, which is already complete and scheduled to open in 2027.

Where carefully planned public areas enhance wellbeing and quality of life for residents and visitors. Where people feel a sense of community.

Introducing MyHome Plus.

What is MyHome Plus?

MyHome Plus is an online service that is designed to help you manage key aspects of your new home at anytime from anywhere around the world.

This section provides you with an overview of MyHome Plus key features to enhance your customer journey.

1. FILING CABINET

In the filing cabinet section, you can access documentation relating to your new home immediately at your own convenience.

If you cannot make it to the appointment, the options can be discussed over the telephone and selected via MyHome Plus. Customer Service will need to receive your choices selection by the deadline date, which will be given in advance.

2. MEET THE TEAM

This section provides an introduction to the team that will be working with you throughout your journey and details their individual roles. You can email any member of the team directly via this section.

3. OPTIONS & CHOICES SELECTION

We are able to offer some choices on certain internal finishes of your new home. Whether this option is available to you will depend on what stage of construction the property has reached at the time of you making your reservation. See the next steps section for further details on this.

4. CONSTRUCTION PROGRESS

Under this section, regular updates on the construction of your new property will be provided, keeping you up-to-date on the progress on site and the local area. Your Customer Relations Manager will issue regular updates and photographs to this section throughout your journey.

5. MY GUIDES

View and download your buying and living guides to support you step-by-step through your journey with us.

Next steps

1. GETTING STARTED

Your Sales Consultant will send you instructions to create and validate your MyHome account. Once your account is validated, your Sales Consultant will assign your property to your MyHome account and your account will be upgraded to a MyHome Plus account.

2. INTERIOR SELECTIONS

Customer Relations will then be in touch to invite you into our Showhomes to view the interior selections available for the internal finishes that you have an option to select.

Transforming tomorrow.

At Berkeley Group our passion and purpose is to build quality homes, strengthen communities and improve people's lives. We are innovating, pushing boundaries and taking action to ensure we have a long-term, positive impact that is good for our customers, the communities we touch, our business and the world around us.

We transform underused sites into exceptional places and we're also transforming the way we work; embracing technology and raising standards, as we continue to deliver an outstanding customer experience and create high-quality homes that delight our customers.

Our Vision 2030 is our ten year plan which sets out how we will achieve this.

TRANSFORMING PLACES

Working with local people and partners we create welcoming and connected neighbourhoods where you can be proud to live.

TRANSFORMING LIFESTYLES

Taking action on climate change and giving you ways to live more sustainably. We're building efficient homes that use less energy over their lifetime, with sustainable travel choices on the doorstep.

TRANSFORMING NATURE

Creating beautiful places with habitats that help nature to thrive, meaning that every site is left with more nature than when we began.

TRANSFORMING FUTURES

Helping people to reach their potential through apprenticeships and training, and programmes supported by the Berkeley Foundation.

Designed for life.

Photography of Sunningdale Park, Ascot

At Berkeley, we are committed to creating great places where people love to live, work and relax. Where the homes are light-filled, adaptable and finished to very high standards. Where carefully planned public areas enhance wellbeing and quality of life for residents and visitors. Where people feel a sense of community.

CUSTOMERS DRIVE ALL OUR DECISIONS

We achieve that by putting our customers at the heart of everything we do. First, we strive to understand what our customers want and need – well-built homes, in a pleasant and safe neighbourhood, with plenty of nature, amenities and good transport connections. Then we apply that understanding to all our planning and design decisions.

And for every new development, we challenge ourselves to go further, to improve and innovate, ensuring we satisfy the real needs of our customers in inspiring and sustainable ways.

CHOICE AND DIVERSITY

No two Berkeley customers are the same, so we aim to offer a wide choice of property location, size and type. From central London to major towns and cities; from market towns to rural villages, countryside to the coast – we build in locations our customers love. And whatever home you are looking for, whether that's a city penthouse, a modern studio apartment or traditional family home, you will find the perfect fit for your lifestyle.

QUALITY FIRST TO LAST

Quality is the defining characteristic of Berkeley developments, right down to the very last detail. We choose our locations, style of homes, construction practices, materials and specifications with great care. When you buy a new home from Berkeley you can be safe in the knowledge that it is built to high standards of design and quality, has low environmental impact and that you will receive a professional, efficient and helpful service from us. For extra peace of mind, all new properties come with a 10-year build warranty.

GREEN LIVING

We are committed to creating a better environment within our developments and in the areas that surround them. That's why we build on brownfield sites whenever we can, bringing new life to disused and unloved spaces. We take care to protect the natural environment and enhance biodiversity. All our homes are designed to reduce water and energy consumption, promote recycling and enable residents to choose sustainable transport options.

COMMITMENT TO THE FUTURE

When we plan a development, we take a long-term view of how the community we create can thrive in years to come. Our aim is to permanently enhance the neighbourhoods in which they are located, through intelligent design, quality landscaping, sympathetic architecture or restoration, and high standards of sustainability. We don't just build for today; we build for the future too.

Sustainability.

PEOPLE, PLANET, PROSPERITY

Sustainability is fundamental to Berkeley's ethos. In simple terms, we want to ensure the long-term health, wellbeing and prosperity of people and the planet. There are a range of ways we are managing and minimising the environmental impact of our operations and delivery of homes and communities. These are the initiatives we have implemented at Eastbrook Village.

NATURE AND BIODIVERSITY

Parkland, trees, flowers, living roofs, ponds, hedges, gardens – these are the fundamentals of a thriving natural environment that can be enjoyed by everyone. They are all part of our commitment to net biodiversity gain on our developments. Within and around Eastbrook Village, we have created natural habitats that encourage wildlife to flourish. We are working with Hankinson Duckett Associates to engage residents in the natural landscapes that we have created.

WASTE AND RECYCLING

We actively encourage all residents to reduce their waste wherever possible. In addition to external recycling bins, we provide integrated recycling bins in kitchens to make it easier to separate and recycle waste.

WATER EFFICIENCY

Our homes are designed to high water efficiency standards and are fitted with dual flush WCs, and low-flow taps and showerheads which use less water without compromising convenience and comfort. We also suggest simple steps to reduce water consumption, such as not leaving taps running unnecessarily. Houses also benefit from rainwater harvesting, which is used in gardens and landscaped areas.

SUSTAINABLE MATERIALS

We commit to sourcing the materials for the construction of our buildings in a sustainable and responsible way. All timber and wood-based products used to build your home should be certified to either the Forest Stewardship Council (FSC) or Programme for the Endorsement of Forest Certification (PEFC) scheme. This means it will have come from a responsibly managed forest. Our focus on materials doesn't just stop there – as a business we are committed to measuring and reducing the embodied carbon of our buildings, which where possible, includes sourcing low carbon materials, and those with high levels of recycled content.

ENERGY EFFICIENCY

Efficient use of electricity helps lower fuel bills and reduces carbon emissions. Our homes have been designed to use less energy than a standard home. They have enhanced levels of thermal insulation and air-tightness, and have been fitted with either Air Source or Hot Water Heat Pumps. All lighting is low energy and kitchen appliances are selected to deliver high levels of energy efficiency.

NOISE REDUCTION

We can't eliminate noise, but we consider the impact of noise in the design of our homes. We consider external noise, such as from nearby roads, and internal noise including the transfer between rooms and floors. We incorporate measures to reduce the different types of noise wherever possible to create a quieter environment.

CLEAN AIR

It is hard to avoid polluted air, particularly in our cities. Throughout Eastbrook Village we have planted trees, shrubs and flowerbeds to help create a cleaner air environment. Within our homes we also provide mechanical ventilation to filter the internal air.

SUSTAINABLE TRANSPORT

We also provide cycle paths, secure cycle parks and car charging points to encourage the use of sustainable methods of transport, to help reduce air pollution around the development and the wider area. Promoting walking and cycling as methods of transport also help encourage healthier lifestyles.

STEWARDSHIP

Maintaining our communal open spaces and facilities in perpetuity is an important benefit to the whole community. We work with our managing agent and residents to ensure the development remains in pristine condition.

FUTURE-PROOF DESIGN

From the early stages of design, we assess how our homes will stand up to the future effects of climate change, such as how they will be affected by higher summer temperatures, periods of drought, or more extreme rainfall. We are constantly researching how we can ensure our homes and developments are more resilient to these extremes to understand how we can adapt to future climate change in our future designs.
